Ratepayers' Annual Meeting.

Matters Dealt With by Town Council Provoke Lively Discussion.

When the Town Council advertised its annual meeting for last Monday the Local Board of Health raised objections, but these however, were later on overruled by the Department at Edmonton, a telegram from which on Monday advised the local officials that it was beyond the power of the health authorities to prevent the meeting.

The fact that the meeting was to be held and a lively time expected was sufficient to bring out quite a representative body of the ratepayers, although quite a number never made their appearance until long after some of the audience had "got up steam".

The members of the Town Council present included the Mayor (J. Rehn), Councillors Oliver, Rolfe, Bratton and Swennumson, Councillor Mord being unavoidably absent.

The preliminaries to the main contest included the reading of the financial statement by the secretary (W. A. Baines), which it is understood the ratepayers will have the privilege of digesting at their leisure a little later on.

On the motion of Councillors Bratton and Swennumson the financial statement was adopted.

A verbal report was then given by Councillor Swennumson as chairman of the gas committee, in which he gave an outline of the work done by his committee during the past year in connection with the "natural gas" system. In regard to the regulator being placed at the west of his property a proceeding which he understood had aroused no little discussion around the town, he called upon Supt. Duffy to explain.

Mr. Duffy, thus addressed, stated the regulator was placed there because it was the proper place. It was his desire to increase the gas pressure for the business part of the town, and he reported to the committee that somewhere in that vicinity was the best point to put the regulator.

F. W. Brown arose and in addressing the meeting hoped that his remarks would be taken in the spirit in which they were meant. He entirely disagreed with the idea that the present site was the best place to put the new regulator, and expressed it as his opinion that it should have been placed on Lathbridge Avenue, where it would have been of far better service.

Supt. Duffy, however, stated his reasons why this could not be done.

Councillor Bratton, as chairman of the public works committee, confined himself more especially to the matter of the cement sidewalks. The Council he said, had given this matter very careful consideration, and after going into it very deeply relative to the prices of lumber and cement had come to the conclusion that cement in the long run would be found much the cheapest. The reason the amount asked for was larger than that first estimated was because many ratepayers had come forward and expressed wish for cement. The Department of Municipal Affairs at Edmonton had been applied to but so far their permission had not been obtained.

Councillor Bratton also gave his reasons as a member of the gas committee for sanctioning the new regulator being put in its present position.

Mr. Ferne then tackled the cement sidewalk question, and said he understood when he was approached on the matter that the cost would not exceed \$5000, and when he read in the local paper an article "Whither are we drifting", and learned therefrom that the cost of cement sidewalks had jumped to \$10.00, he was naturally surprised. He hoped the Council would not proceed with the scheme

until it had obtained the feeling of the ratepayers.

T. R. Blaine (late councillor resigned) took up the matter of the roads, and thought Councillor Bratton, deserving of very great praise for the work he had done. He had, Mr. Blaine, said, worked like a paid official. The cement sidewalk proposition was, however, a great surprise to him. Before he left on his trip east, he understood the work was to be confined to Main Street, Whigs upon his return he learned of the many other streets to be included he could not say that it met with his approval.

Councillor Swennumson couldn't see where there was any argument at all. The cement sidewalks would be a benefit to the whole town, and were by far the best.

Councillors Rolfe, as chairman of the health and relief committee, and W. J. Oliver chairman of the assessment committee, each submitted a brief report of the work done by their respective committees.

In the absence of Councillor Mord, Councillor Swennumson reported on behalf of the fire, water and light committee. He said his report would not be a very long one, as outside of the drilling of the well there had not been very much done. The water well would probably cost about \$2000. A watering trough would be placed near Lathbridge Avenue, but they did not propose putting one at the west end this winter owing to the danger of it freezing up.

Mr. Ferne then seized the opportunity of introducing the matter of the resignation of Councillor Blaine, and asked whether it would be in order for Mr. Blaine to give his reasons for resigning.

The Mayor having signified his willingness.

Mr. Blaine said he thought he had already clearly stated his reasons in the paper for resigning. He had been on the Council for two years, and a report of the police committee, of which he had been the chairman, would have been pretty well the same as last year. He then briefly dealt with work done by the Council since the trouble some time ago left himself and Councillor Oliver as the sole representatives of the Town Council.

Councillor Blaine then took up the matter of the action of the Council in discontinuing giving free gas to war widows, and for some little time after that attacks and counter-attacks between the late Councillor and his former colleagues were the order. From the gas question the argument went to other matters, and some rather nasty accusations were made in the heat of the moment. It however eventually petered out leaving none the wiser but some possibly a little vexed that things had gone as far as they had.

In regards to the gas question, however, both the Mayor and Councillor Swennumson affirmed that the action of the Council was based on the advice of the solicitor, and the former intimated that had it not been for Councillor Blaine's belligerent attitude the whole matter might possibly have been reconsidered before.

This intimation of the Mayor's was the signal for another live outburst but unfortunately the reporter's pencil tip just at this moment exhausted itself and the details of the cross-fire were lost during the period of re-sharpening.

A motion of adjournment made shortly afterwards cleared a large number of the ratepayers out of the hall.

MEETING OF THE SCHOOL TRUSTEES.

The meeting of the School Trustees which followed the Town Council was fairly in comparison in comparison. In view of the amount of criticism hurled at the Board during the summer in connection with the new school this was rather surprising.

The trustees present included the (Continued on page 2)

SUCCESS OF THE VICTORY LOAN A TRIUMPH FOR CANADIAN PEOPLE

INSURES LIQUIDATION OF FLOATING INDEMNITIES

Sir Thomas White Says That the Financial Strength of Canada is Shown in the Campaign, and That Our Economic Soundness After Four Years of War Will Surprise the World

Ottawa.—Referring to the Victory Loan success, Sir Thomas White, said it has been a triumph for the Canadian people. The announcement that Canada has more than offset her last and greatest Victory loan will greatly impress the world as to our economic soundness and financial strength, after more than four years of war.

"I am more grateful than I can say for the splendid response of the public to the Victory Loan, and for the magnificent work of the Victory Loan organization throughout the entire Dominion. The influence was a most effective factor in the campaign to some extent, but were on the whole, I think, rather helpful than otherwise. Notwithstanding all drawbacks and vicissitudes, however, the loan went gloriously well."

His success enters the liquidation of all floating indemnities of the Dominion as well as providing funds to meet the expenses of demobilization and credits for the purchase of our agricultural and manufacturing products during the period of reconstruction. Canada will enter a most important period of development financially as the result of the Victory Loan.

To all the agencies that so powerfully assisted—the press, the pulpits, the various newspapers and other workers and helpers, I express my most grateful thanks.

Of the records of the loan about \$175,000,000 will go to meeting floating indemnities, \$200,000,000 to the purchase of agricultural and manufacturing products, and \$250,000,000 probably will go to the provision of credits for wheat, foodstuffs and other purchases on account of the United Kingdom.

NO PRISONERS' PARCELS

Ottawa.—A telegram which has been received from the Canadian High Commissioner, London, to the effect that on account of war, all individual parcels for prisoners of war have been stopped. The needs of these prisoners are being attended to by the Canadian Red Cross Society or similar aid societies.

PETAIN A MARSHAL

Paris.—General Petain's rank is to be raised to the rank of Marshal of France, the cabinet council has decided.

W. N. U. 1229

SUNDAY SCHOOL LESSON

LESSON FOR DECEMBER 1—THE STORY OF JOSEPH

1. Joseph the Well-beloved Son (37:1-4).

Joseph was Jacob's favorite son. This was due partly to the fact that he was the son of his wife's first love and the son of his old age, but mainly because of the superior qualities which Joseph possessed. His father loved him more than all the other sons, and he was a superior position and more respectable clothes. But Jacob should not be partial toward Joseph, perhaps, was unavoidable, but that should not manifest itself in an extreme manner. Serious trouble will always result from partiality being shown toward children. His brethren's intense hatred burst forth upon him. This feeling was intensified by his pure life and his father's affection for him because of their evil deeds. Joseph is a type of Christ. He was living in a world of sin, but he was not of it. He was with his brethren (John 16:28). Joseph was the beloved son of God (Matthew 3:17). Joseph, hated by his brethren (Genesis 37:4). Joseph was hated by his brethren (John 15:24). Joseph was envied by his brethren (Genesis 37:11). Christ was delivered up through envy (Galatians 3:10).

2. Joseph's Dreams (37:11-12).

1. His brothers' dreams bowing in. This was rightly interpreted by them to mean their humble obedience to him. This intensified their hatred. 2. The sun, moon and eleven stars rendering obedience to him. This dream is wider in its application. The eleven stars are identical with the eleven disciples. The sun and moon, as rightly interpreted by his father, representing his father and mother as rendering obedience to him. 3. Joseph sent by his father on a mission of mercy to his brethren (John 15:24). His brethren had gone to Shechem, about fifty miles distant from Hebron, where was abundance of pasture for their flocks. Jacob became anxious as to their welfare, and sent Joseph, a young man now seventeen years old, to find out the condition. He was sent by his father, and he was sent by the Father on a mission of mercy to his brethren (John 15:24). Though he knew that the envious hatred of his brethren would result in his suffering and death on the cross, he went forth to do his Father's will.

Joseph's Reception by his Brethren (18:28).

1. Their murderous plot (18:28). They said, "Behold, this dreamer cometh, let us slay him." This is what Christ's brethren say about him (Matt. 21:38). They thought they would prevent these dreams coming true by destroying the dreamer. Reuben descended from them from this act by proposing to cast him into a pit, intending afterward to rescue him and restore him to his father.

2. They strip him of his coat (23:12). In spite of his earnest entreaty against the act, they persisted in this "barbaric cruelty" (Genesis 42:21).

3. Their terrible cry (23:25). Their "barbaric cruelty" is manifest in that they could enjoy the festive feast and hearing of Joseph's cries. 25. Sold him to the Ishmaelites (25:25).

Joseph proposed that they sell him to the Ishmaelites. He was letting him die in the pit. One Judah, later, sold the Lord for money. Having sold the Lord for money, they sought to cover it up by deceit and sin. They sold the Lord for money and dipped it in the blood of a man and sent him to the Ishmaelites to draw his own conclusion as to the matter. Jacob is now ready to send Joseph to his brethren, before this he had deceived his father by trickery and pious lying.

GERMAN FLEET WAS IN NO SHAPE TO GO TO BRITISH

REVELATIONS REGARDING HUN NAVAL MATTERS

Captain Persius, German Naval Critic, Publishes a Sensational Article in Which He States That the Hope of the German Fleet Rested Upon Bluff and Lies

Advertisements

Show Condition

Germans Preparing to Embark on Commercial Campaigns in East

New York.—Martial order has been supplied by martial law in Germany. This is evidenced by the advertising columns of German newspapers received here. Maritime "ads" cover whole pages and are inserted by people of all ages and walks of life.

A peculiar feature of these advertisements is that many make appeal for husbands or wives for relatives. Parents, brothers, sisters and friends of those who seek notice, in correspondence from those naval officers, manufacturers and rich widows are among those who resort to publicity.

The advertiser says he is a widower who has property amounting to several million marks. He admits he is 58 years old, but says he "looks younger." A physician, who has an annual income of 10,000 marks, seeks to arrange a meeting with "a beautiful, young woman, object matrimony."

Scarcely of tobacco in Germany is shown by the large number of advertisements offering to purchase cigars and cigarettes in any quantity.

That the Germans are preparing to embark on large commercial campaign in the east is inferred from advertisements asking for agents to find purchasers for German products in Poland and Russia. These announcements request manufacturers to send samples of their goods which are "suitable for eastern countries."

More Propaganda

Germany and Bolshevik are Believed to Be Allied

London.—Sir George Cave, who recently resigned from the position of secretary of state for the home department in the Lloyd George cabinet, has been elevated to the peerage, in speaking in the house of lords said that, although there was a pause in the current activities of the Bolsheviks and their allies, he believed that the Bolsheviks had not been defeated. "Germany has already begun to try to destroy the unity of the allies and to bring about a new alliance. I believe there is a close alliance between Bolsheviks and Germany. I have the evidence of this during the last week."

Regarding the press bureau, he saw no reason why it should be abolishing. He said that he saw nothing in other day press cables from Russia which were "obviously false and intended for propaganda purposes."

"We ought not to relinquish the weapons provided by the allies of the realm set for dealing with Bolsheviks. The German government is introducing in the next parliament a bill which the government to impose restrictions upon the leading of enemy ships."

Enormous Needs

In Reconstruction

Representatives of Allied Peoples Tell of Losses to Be Replaced

At Once

Rechester, N. Y.—Belgium will need raw materials, machines and railway equipment. France will need a million plows and other agricultural machines and livestock and animals and all the other nations which have been overrun by Germany will need thousands of houses. These in brief were the immediate construction needs of the principal allied nations as stated by their representatives here at the opening session of the National Municipal League conference in reconstruction.

Their estimate of the German occupation was placed by Professor Paul Vanier, of the Belgian government, at between four and six billion dollars. The speaker has plenty of evidence, he said, but looked to America for machinery and raw materials.

Little more than half of the French high commission, estimated that six hundred million days of labor would be required to reconstruct the devastated portions of France, where losses by German occupation he estimated at ten billion dollars. It will take two years of rehabilitation and mines for working, he said, and 1,310 cattle taken from 1,310 farms will be required.

Dr. "Dionysius Adonis," Ottawa, declared that Canada would have to build 100,000 houses to meet the demand for housing.

ROYAL BANK IN RUSSIA

Winnipeg.—The Royal Bank of Canada has decided to establish a branch at Vladivostok. The manager of the chief Royal Bank of Canada, Mr. J. H. Williams, said that the necessary charge of the important development.

GET NO MAIL

Paris.—The German postoffice department has suppressed the postal privileges of the German princes who have not yet abdicated, according to a telegram from Dresden.

German Warships

Fared Own Mines

Naval Surrender Mission Was Delayed by Non-existent

London.—The admiralty description of the naval surrender mission at the end of the war, which was delayed by her varying from the course previously indicated by the British.

Such variation was in order to make a detour about the German coast, which was to be the first step in the mission. Some anxiety was felt, but the mission was completed. The German ships were not in the mission. The German ships were not in the mission. The German ships were not in the mission.

PROTECT VON HINDENBURG

Copenhagen.—The workers' and soldier council of Cassel has issued a proclamation to protect the honor of von Hindenburg. It is taken under the special protection of the council.

After referring to von Hindenburg's victories, the proclamation says: "It is our duty to protect his person in his hour of trial."

Will Receive Def. red Pay

Some Grants Coming to Dominion Veterans on Their Return to Civil Life

Ottawa.—There is in the hands of the receiver general a credit of soldiers of the C.E.F. of approximately \$10,000,000 deferred pay. This represents pay earned but not drawn, with accumulated interest. The majority of the men will have a sum of money which they themselves have saved immediately available on discharge.

There will be paid to every man a further sum, by way of free grant commonly called post discharge pay. This will be a sum equivalent to three months' pay and allowances, payable in three months' instalments, following separation allowed to the soldier's dependents entitled to receive it.

On discharge every soldier who has done uniform will also receive \$35 which is intended to provide for the purchase of civilian clothing.

7,000 TO BE DEMOBILIZED

Winnipeg.—In Manitoba military district there are seven thousand mobilized soldiers who have been passed by the medical board and whose discharge is being arranged. The plan is for immediate demobilization as soon as the medical board has passed the soldiers.

Joseph sent by his father on a mission of mercy to his brethren (John 15:24). His brethren had gone to Shechem, about fifty miles distant from Hebron, where was abundance of pasture for their flocks. Jacob became anxious as to their welfare, and sent Joseph, a young man now seventeen years old, to find out the condition. He was sent by his father, and he was sent by the Father on a mission of mercy to his brethren (John 15:24). Though he knew that the envious hatred of his brethren would result in his suffering and death on the cross, he went forth to do his Father's will.

Loan Counter at Canadian Bank of Commerce, Winnipeg

Winnipeg.—A loan counter has been opened at the Canadian Bank of Commerce, Winnipeg, for the purpose of advancing loans to the unemployed.

CROSSING DOUBT BOIL

Paris.—It appears to be a fact, says the Temps, that German troops returning to Germany from Belgium ground the Dutch province of Limbourg and that they passed the frontier with the sanction of the Dutch authorities. This free passage of Dutch territory granted to one of the belligerents, the newspaper contends, constitutes a precedent which will be a source of danger to the world.

War Saving Stamp Plans

Thrill Stamps Will Also Be Placed on Market by Ottawa

Ottawa.—Announcement has been made that the government will inaugurate a war savings stamp campaign. The first war savings stamp has just been issued. It is a five-cent stamp. The government will become the repository of the nation's savings in a total of \$50,000,000. The stamps will be placed with the government by means of the purchase of war savings stamps. The stamps are to be sold by the government at a price which will work out to an interest rate of somewhat better than 4½ per cent, compounded semi-annually or five per cent, simple interest. It is expected that the stamps will be sold in December, 1918, or January, 1919. A five dollar savings stamp may be bought for four dollars. After January the purchase price of a war savings stamp will be increased month by month, but at the end of five years from December, 1918, all stamps will be redeemed at face value.

Removing Restrictions

Travelers Free to Leave This Country Once More

Ottawa.—On May 24, 1917, with the object of preventing an exodus from Canada of persons who might be affected by the military service act, the government passed a regulation which made it necessary for a person desiring to travel must first secure a permit from the military service act. As this regulation imposed some hardship on the travelling public and the conclusion of hostilities seemed to render unnecessary the further application of the regulation, the government has rescinded the same and people are once again free to leave the Dominion as they see fit for the outbreak of the war.

Let Cuticura Care for Baby's Skin

It's really wonderful how quickly a hot bath with Cuticura Soap followed by a gentle rubbing with Cuticura Ointment relieves infant irritations which keep babies awake and restless, permits sleep for infant and rest for mother, and helps to maintain a moist case when it adds nothing more help.

Dairy Show at Winnipeg

To Be Greatest Demonstration of Its Kind Ever Held in Canada

A dairy show will be held at Winnipeg, February 17 to 19, 1918, in conjunction with the annual convention of the Manitoba Dairy Association. The last convention of the association at Winnipeg in January of 1917, was by far the largest and the best ever held in Canada. A large factor in making it such a marked success was its international character. It was not simply a display of the products of the dairy industry for the three Prairie Provinces which have set the new standard for Canadian dairy industry during recent years. Still greater emphasis is being given the international idea in connection with the next convention and dairy show, and anyone desiring to meet all the representative creamery and milk plant operators of Western Canada will have an opportunity to do so at Winnipeg from February 17 to 19.

Prominent manufacturers of dairy equipment and farm dairy supplies of Western Canada and the United States have stated their intention to place exhibits, and all will doubtless, welcome this, the first opportunity to display their goods to the representatives of dairymen in all the branches in Western Canada. A splendid auditorium, containing 7,000 seats, since the opening of the exhibit, has been secured for the convention will be held in the beautiful Fort Garry hotel near by. Strong committees have been appointed in charge, and their plans extend to the exhibitors and visitors, the money's worth and a genuine western welcome in addition.

CORNS PEEL OFF, SHRAVEL RIGHT UP

It's a corker the way Putnam's Extractor goes after the kernel of corn. You slip on a few drops of Putnam's and relief comes at once. The pain all goes, the corn shrivels up, and soon drops off. Wonderful—you bet it is. No other corn remedy can do this. The quick, sure action you get with Putnam's Painless Corn Extractor. When you buy a corn-remover, you're buying a corn-remover. Putnam's, why pay more? Get Putnam's.

Live Stock Industry

Public Stock Yards Proposed for Saskatchewan

The rapid growth of the live stock industry in Saskatchewan is bringing to a head the question of establishing public stock yards in some of the cities of the province. Hitherto, most of the live stock of Saskatchewan has been marketed in the neighboring provinces, chiefly at the stock yards at Winnipeg, Manitoba. Farmers in the northern part of the province, who are increasingly being called upon to raise all kinds of live stock, are eager to see the establishment of stock yards, and other facilities for the handling of live stock at Saskatoon, and plan to under consideration whether a co-operative company.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. These tablets are made of purest ingredients and will keep the little one's stomach and bowels working regular. Cold and colds will not enter, but the health of the little one will be good and that he will thrive and be happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Thinking of Million Dead

Talking to the British Pilgrims Society, James M. Beck marvels at the restraint of the British people in the face of the millions of dead. He is saying: "England's feeling is that of a judge in a criminal court, who is prisoner convicted of a foul murder, with the judge putting on the robes of mourning to bury the dead. That is the spirit of England today." Mr. Beck is largely in the right.

The average man feels that those who have the most right to celebrate

Only the uninformed endure the agony of corn. The knowing ones apply Holloway's Corn Cure and get relief.

Scruples and Drams

A certain gentleman belonging to a Presbyterian congregation, was sent out by his pastor to solicit the members of his congregation, "mainly Irish," in the matter of subscribing to the church, revenues by means of the Duplex Envelope. Quite a number refused to subscribe in this manner as they had conscientious scruples. But the solicitor was politely received, and in many cases asked if he would "no have a dram."

On his return the pastor questioned him on his success.

"Well," the gentleman replied, "I've come to the conclusion that the Scotch character is largely of an apocryphal nature."

"Why? How's that?"

"It seems to be founded principally on scruples and drams."

THE REVIEW, BOW ISLAND, ALBERTA

NEW TREATMENT FOR KNOCKS RHEUMATISM

THE BOX FREE TO ANY SUFFERER

Up in Syracuse, N.Y., a treatment for rheumatism has been found that hundreds of cases are a wonder, reporting cases that other methods have failed. This is the only treatment which cures after other remedies have failed. It is a simple, safe, and effective treatment. It is a simple, safe, and effective treatment. It is a simple, safe, and effective treatment.

The treatment first introduced by Mr. De-

Government to Supply Sheep on Credit Terms

The department of agriculture, through its live stock branch, is again offering to supply Saskatchewan farmers with grade eyes on credit terms. To obtain the eyes, the farmer must make sure that all applications would be received by the live stock commissioner and forwarded to the live stock branch. These eyes will be supplied to the farmer on credit terms. These eyes will be supplied to the farmer on credit terms. These eyes will be supplied to the farmer on credit terms.

The live stock commissioner has purchased and contracted for several thousand high-grade eyes of the Oxford, Shropshire, Suffolk and Cheviot breeds. These eyes are all young ewes, mostly from one to three years of age and are all sired by pure rams. Besides eyes of this type, a number of grade eyes are also being offered to those who prefer the Merino type. In past years, a good many applications were received for these eyes, which could not be filled.

This year, special arrangements have been made whereby 1,500 high-grade Oxford and Shropshire eyes will be offered to registered Oxford and Shropshire rams. These eyes will be offered to the farmer on credit terms. These eyes will be offered to the farmer on credit terms. These eyes will be offered to the farmer on credit terms.

By purchasing eyes already bred, the farmer is saved the expense of buying a ram the first season, and is assured that his eyes have been bred to a good sire. The Oxford and Shropshire eyes are all sired by the flocks of Art and Son of Ontario, while the Shropshire rams were purchased from the University of Saskatchewan. The price of these eyes is \$1.00 each, and the farmer is assured that all eyes will be of the highest quality. The eyes will be supplied to the farmer on credit terms. The eyes will be supplied to the farmer on credit terms. The eyes will be supplied to the farmer on credit terms.

Each eye will cost the farmer \$1.00, and the farmer is assured that all eyes will be of the highest quality. The eyes will be supplied to the farmer on credit terms. The eyes will be supplied to the farmer on credit terms. The eyes will be supplied to the farmer on credit terms.

Card of thanks 50c. each. Local advertising reading matter, 10c. per line first insertion, 5c. per line following insertion.

The Municipal Elections.

The interest so far displayed in the approaching municipal elections does not seem to be of a very keen character. The ratepayers generally must alter this state of affairs. On the surface perhaps they may seem to reason why one should bestir himself, but more careful consideration

must convince us that a general interest in municipal matters is just as necessary now as at any previous period.

If there is no issue of importance awaiting decision just at present it is not to say that there will be none during the ensuing year. And it is to eventualities that one has to look. To our mind the ensuing twelve months is fraught with great importance.

The unstable condition of the world is bound to react upon every corner and portion to a more or less extent, and Bow Island equally with other towns and cities would do well to heed this fact. The homecoming of the troops is another factor for consideration, and in this also we have our share to perform. Another question, and a very important one this, is regarding our expenditure - Here we have not only the unsettled conditions of the world generally, but we also have to us the equally important matter of the condition of the district to consider. Without being desirous of presenting a gloomy picture, yet nevertheless common sense and business decision equally remind us that the policy of economy for the next twelve months must be our chief aim.

The taxes are not coming too freely and any setback next year would make our position somewhat embarrassing. It is in view of the reasons already enumerated that we would emphasize the extreme importance of the ratepayers choosing their representatives for the Town Council this year with more circumspection than has been usually the case. We are quite aware that this year is very limited, but notwithstanding that there is sufficient for our needs, and it is certainly up to the ratepayers to choose those who will best serve the town's interests.

Personal feelings should be eliminated. We say this because in every small town there is apparently this outstanding feature, and in electing our representatives the fact should not be lost sight of that we are dealing with a body who are expected to represent the entire town.

Eat less Bread

Burdett.

The good news has arrived that Signaller A. Brown, of the Canadian Scottish, prisoner of war has been repatriated.

The local "health factory" is doing lots of business, mostly repairs. Temperatures are low, lungs eased, pain removed, constitutions built up, and coughing made easy.

Mr. and Mrs. J. Volk and eight children, Mrs. M. E. Liddle and Stanley Liddle, and Miss L. Kessler were discharged from the hospital on Thursday.

The ladies of Burdett are keeping records in the way they are assisting the local hospital.

Rev. H. S. Bird has another son.

The "flu" has not left us yet, in fact it looks as if it intended to make its home here. A large number of new cases are reported and in the local hospital things are more than busy.

A number of our helpers have been stricken with the malady including Mr. and Mrs. E. Brown, Misses M. Loveland, Dillman and Powell.

Will some kind person donate our reeve a glass case, preferably one that is impervious to "flu" germs.

F. A. Hutchings is sick in bed from overwork.

Mrs. W. Perry has been visiting with her sister, Mrs. Art Lindquist, at Bow Island.

On Thursday, November 25th, at Bow Island, to Mr. and Mrs. Sandy, a daughter.

Winnifred.

OBITUARY.

The funeral of the late John Christopherson, whose death from influenza was recorded

last week, took place on Friday last and every sign of regret from the citizens. The cortege started from the funeral parlors at 2:30 p.m., and escorted by a long procession of automobiles conveying friends and sympathizers wended its way to the home of the deceased where a very impressive funeral service was conducted by the Rev. Woods, and where the beautiful ceremony of the I.O.O.F. lent additional solemnity to the occasion.

The interment took place in the Oddfellows' cemetery.

The casket bearing the remains was made of quarter-sawn oak and had highly burnished copper fittings. It was covered with numerous offerings of beautiful flowers.

John Christopherson contracted the prevailing epidemic of influenza on November 11th and died from its effects between three and four o'clock on the morning of the 20th, leaving a wife and two young children to mourn his death. In addition to these he leaves a father and mother and four brothers and four sisters. His parents together with one brother and two sisters reside at Stanley, Wis., another brother lives at Wainwright, Alberta, one is serving at the front, whilst the other resides in Wisconsin. Two of his sisters live in Minneapolis and Washington, D.C., respectively.

The deceased resided in Wisconsin until nine years ago, when he came here and filed on a homestead five miles north-west of Winnifred. During the last year and a half he has been with Mr. Behring in the garage and implement business at Wainwright under the firm name of Behring and Christopherson. In addition to his business connections, however, the deceased was imbued with a fine public spirit and always found time to lend his valuable aid and give advice on matters pertaining to the various local organizations of which he was a member. With his beloved young wife and relatives every resident extends the deepest sympathy, feeling that in him they have lost one whose sterling worth and honorable and many of us are well remain in their memory for many years to come.

Years and Years of
Glorious Music

The New Edison Diamond Amberola is a marvelous invention, even for a genius like Thomas A. Edison. So perfect is its construction and mechanism, that it will give you years and years of exquisite pleasure without the bother and expense of providing and changing metal needles.

The NEW EDISON
DIAMOND AMBEROLA

has a diamond reproducer point that never wears out. And the AMBEROL RECORDS—almost unbreakable and nearly unbreakable—have been played 3,000 times in laboratory tests without showing noticeable signs of wear.

How To Have Them, Free.

We want to put you in a position where you can decide that the entertainment, education and instruction your entire family would receive from this almost human instrument, are worth many times the cost of the Amberola. Simply ask us to send you an Amberola and a choice selection of Records. Play them in your own home, over and over again, and then if you decide to keep the outfit, we will arrange terms if you like. If you do not care to keep the outfit, simply notify us and we will send it for. That's all.

SCHOOL TRUSTEES.

(Continued from page 1.)
chairman (R. H. Robertson), J. M. Britton, W. A. Bateman and J. B. Stewart. A. F. Dulmage was absent.

The chairman, in opening the proceedings, said he had been on the Board now for six years and he would like to take the opportunity of thanking the ratepayers for their repeated confidence in him. He congratulated them on having such an up-to-date school, and considered they had a very efficient staff of teachers, although he was aware that the prevailing epidemic had intervened to prevent the staff showing their real ability. He, however, hoped that the influenza would soon be lifted and that the school could re-commence. With regard to the new Board he had been hoping that some of the ladies in town would take an interest in school matters.

There followed the financial report from the secretary.

Trustees Bateman and Stewart, both addressed the meeting to some extent, the latter stating that he thought it was up to the district to furnish a van for the south country.

The chairman said that this question would be put to a vote of the ratepayers at the forthcoming election.

Several of the ratepayers from the south who were present arose and put questions relative to this matter, making a strong plea for the school in that portion of the district.

Trustee Bateman, in a few words, said he had been on the Board for six years now and gratefully acknowledged relations which had existed between him and the Trustees. Speaking of the new school, he hoped that something would be done the next year to make the playground a little more attractive for the scholars.

The meeting shortly afterwards terminated with the singing of "God save the King".

The Churches.

ST. MICHAEL'S.
Mass will be celebrated at St. Michael's on Sunday next at eleven o'clock.

ALL SAINTS' CHURCH.
Thanksgiving for Victory.
Morning and evening 11 a.m. and 7.30 p.m.

Members are asked to remember the past vacant Sundays when making their offerings on this day.

UNITED CHURCH.
Sunday School on Sunday next, December 1st, at eleven o'clock. A service will also be held in the evening at 7.30 p.m. All are welcome.

LUTHERAN CHURCH.
A Norwegian service will be held in connection with the Lutheran Church on Sunday next, December 1st, at 1 o'clock in the Presbyterian church.

Sunday next, December 1st, has been fixed by the Dominion Government as a day of thanksgiving for the conclusion of hostilities.

Local and General.

A. F. Werts and E. J. Henderson paid a business visit to Lethbridge on Wednesday.

Geo. Bragman, of Deer Park, B. C., accompanied by Miss Swartzenberger, has been visiting his sister Mrs. Art Lindquist the past week.

Michael O'Neil returned on Monday from a visit to the States.

Mrs. G. F. Ridgedale returned on Monday.

Rev. MacMichael of Pincher Creek and Rev. Isaacs of Cardston visited with the Rev. G. Herring over Sunday.

Mrs. Frank Grund was taken to the hospital at Medicine Hat on Monday for medical treatment.

The weather still keeps fine and open and at the time of writing there is no sign of the stormy weather that some had been predicting.

The churches will all be open on Sunday and thus everyone will be given the opportunity to offer thanks and to participate in a befitting manner the peace to which we all have been looking. Not a person should be absent.

The Town Council is to be congratulated upon its success in securing from the Dept. of the Interior at Ottawa a lease reserving to the town of Bow Island certain gas areas in the vicinity. This is something that successive Councils have in vain attempted to obtain, and thus all the more credit to the present body.

Mr. and Mrs. J. Hurd left on the early train Saturday on a visit to their son in North Dakota.

Mr. and Mrs. E. Beguin left Monday for Vancouver where they intend to spend the winter months.

What the Council Did.

The meeting of the Council on Friday last was attended by the following members—Mayor Held, Councillors Hurd, Oliver, Swenham, Hatton and Rolfe.

The following accounts were passed: C. P. R. freight, \$ 30.10
McBeth Evans Plaster Co., 45.29
A. Sharp, sharpening tools, 2.75
Telephone, 75
The secretary announced that he had received the gas lease covering the property adjoining the gas well.
